**Our mission is to provide not just food, education and shelter, but also to instill morals to help our children grow, learn, and eventually become independent.**

# OUR PRIMARY ACTIVITIES

- We provide hygienic environment, balanced nutritious food, clothing, shelter, education, morals, basic family values, culture, and above all the true value of love and affection
- One of the major advantages of our organisation is that all our children have the support of our senior citizens who themselves are neglected by their kith and kin
- In return, the senior citizens get love and affection from the tiny tots when they need it the most
- We run accredited primary and high schools, which benefit the orphans and thousands of rural children in about 50 villages in this area
- In addition to taking care of the physical health by having Doctors, Nurses, and Aayas to support thousands of human beings within our premises, we also take care of mental health needs such as counselling, outdoor activities, keeping the environment clean with greenery and so on thereby resulting in upbeat perspective of life for everyone

# OUR PLAN AHEAD

- Constantly find ways to improve the quality of life of our children, elders, and staff
- Provide high quality education to below poverty families and uplift them
- Develop a 100% job placement focused training center for which, we are currently exploring the needed Skill Development categories & funding needs
